

Department of Biomedical and Molecular Sciences
Report of the Examining Committee on the
PhD Comprehensive Examination

Name of Student:

Student Number:

Supervisor:

Date and Time of Exam:

Field/Specialization:

First Attempt
 Second Attempt

The candidate has successfully completed the comprehensive examination in partial fulfillment of the PhD degree.

We recommend that the student be allowed to proceed with the completion of the PhD program. All academic requirements have been met.

OR

The candidate did not successfully complete the comprehensive examination. At the end of the examination, the Committee and the failed student identified the problems with the written document and the questions and unsatisfactory answers in the oral examination. The student was reminded that a second failure of the comprehensive examination will result in the student being required to withdraw from the program.

We recommend that the student be permitted to submit another document within 6 months of the examination date.
